

## **EXCITING UPDATE FOR ENCYCLOPEDIA OF CANNABIS**

Dear Friends, Fans and Cannabis Enthusiasts,

The Encyclopedia of Cannabis is the first book of its kind to provide a comprehensive catalogue which includes detailed strain and cultivation information on 1200 different varieties of cannabis species.

The response that we have received from fellow cannabis enthusiasts has been wonderful as our book has gained popularity in Europe and International markets. The first 3000 book sets of the Encyclopedia have been printed locally in the Netherlands. Our Encyclopedia is a beautiful masterpiece, an absolute must have for anyone with a love for the cannabis plant.

For more information on the book please visit our web site at [www.enofca.com](http://www.enofca.com)

### **Pre-sales will begin tonight March 8, 2019 at 00:00 CEST**

For more information on how to purchase send a DM on Facebook or Instagram. We also can be contacted via email at [info@enofca.com](mailto:info@enofca.com)

- Price for book set is 69.9 EUR
- European customers: Please refer to our shipping table below to European countries.
- International Customers: Due to the weight of the Encyclopedia, the shipping costs to other countries is currently quite high for single orders. The additional cost of 60 EUR for shipping will be added for international orders, for our valued customers who would prefer to be the first to receive our book out of Europe
- Our goal to reduce the cost of purchasing the book for our International customers which is why our team is hard at work preparing to publish in Canada. This will eliminate the shipping costs, allowing us to pass the savings onto International customers as well as opening up the North American market.
- Our timeline forecasts that the book will be available for purchase from Canada August 2019.

The first edition is selling quickly! Do not miss your opportunity to purchase the first edition before we sell out!

Greenest Regards,

Team ENOFCA
